Medium-term Programme Framework 2022-2025

Integration and scale up to build back better

The Medium-term Programme Framework 2022-2025 is UNIDO's strategy in ensuring industry continues to serve **people and planet while driving prosperity**.

The strategy outlines how UNIDO will advance Inclusive and Sustainable Industrial Development for the implementation of the 2030 Agenda, by supporting countries in delivering on their sustainable development priorities and building back better.

What are the key messages of the UNIDO Medium-term Programme Framework 2022-2025?

1. Countries are faced with an unprecedented opportunity to “build back better”.

Inclusive and sustainable industrial development (ISID) is at the core of SDG 9 on Industry, Innovation and Infrastructure.

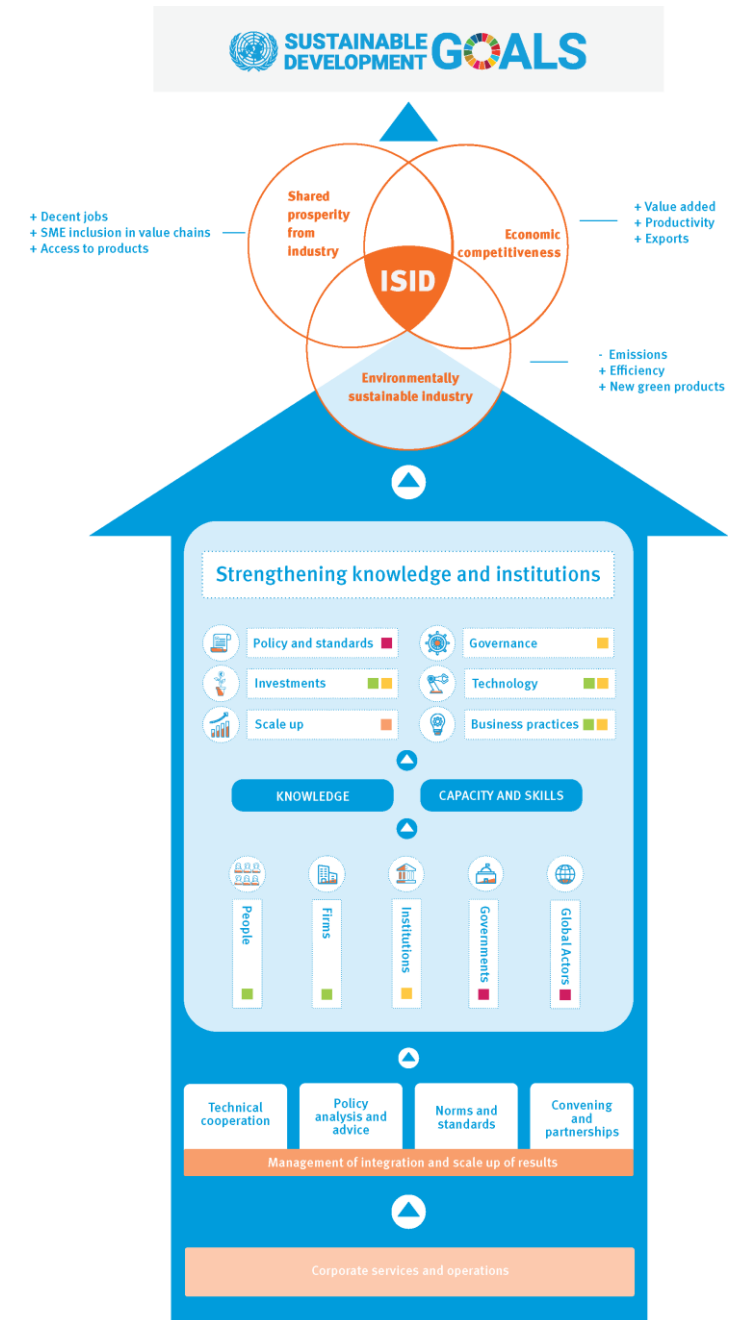

It also offers pathways for **inclusive growth and jobs, reduced inequalities, resilience, accelerated digital and green transitions and progress** towards all Sustainable Development Goals.

2. UNIDO's vision is to support Member States to accelerate the **transformation towards inclusive and sustainable industrial development**, seizing opportunities to achieve the SDGs.

The organizational **Theory of Change** describes how UNIDO will deliver on this vision.

4. Evidence-based programming, thought leadership and convening of public and private partners remain at the core of UNIDO's approach to catalyse solutions for ISID.

UNIDO will continue to provide integrated service packages that combine core functions in technical cooperation, policy analysis and advice, convening and partnerships, as well as norms and standards.

5. Organizational **innovation, effectiveness and efficiency** enable transformative results.

UNIDO will continue to reinforce its position as a **trusted partner** to Member States and the UN Development System at the global, regional and country level.

6. The MTPF 2022-2025 consolidates UNIDO's priorities and sharpens its comparative advantage. Together with results-based Programme and Budgets and fully aligned Annual Reports, it constitutes a **powerful and integrated framework to upscale and demonstrate impact**.
