

UNITED NATIONS  
INDUSTRIAL DEVELOPMENT ORGANIZATION

A woman with dark hair, wearing an orange hard hat and a blue and yellow safety vest, smiles warmly at the camera. She is holding a tablet computer. The background is a blurred industrial factory setting with blue machinery and overhead lights.

# STRENGTHENING KNOWLEDGE AND INSTITUTIONS

## STRENGTHENING KNOWLEDGE AND INSTITUTIONS...

...is UNIDO's core approach to ISID.

This means:

- working with key actors;
- enhancing knowledge capacities and skills; and
- influencing behaviours

to unlock a transformation towards Inclusive and Sustainable Industrial Development.

# In Ethiopia, sustainability and inclusiveness of national coffee production was enhanced through private and public partnerships.

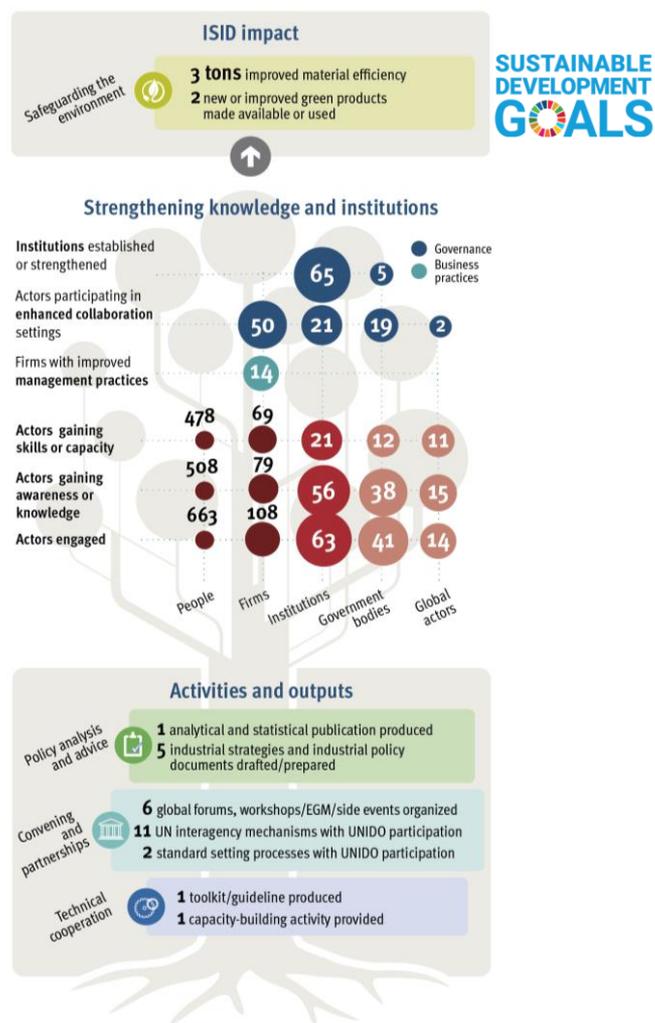

UNIDO worked with the government, institutions, firms and the general public...

...to strengthen business practices and governance, and support development of new products and technologies along the coffee value chain.

Through the **Partnership for Action on Green Economy (PAGE)**, UNIDO works with other global actors and countries, to support the transformation towards environmental sustainability, job creation, reduced poverty, and improved social equity.

It does so by fostering new inter-agency mechanisms and strategies and stronger national implementation capacities, while also improving business practices.

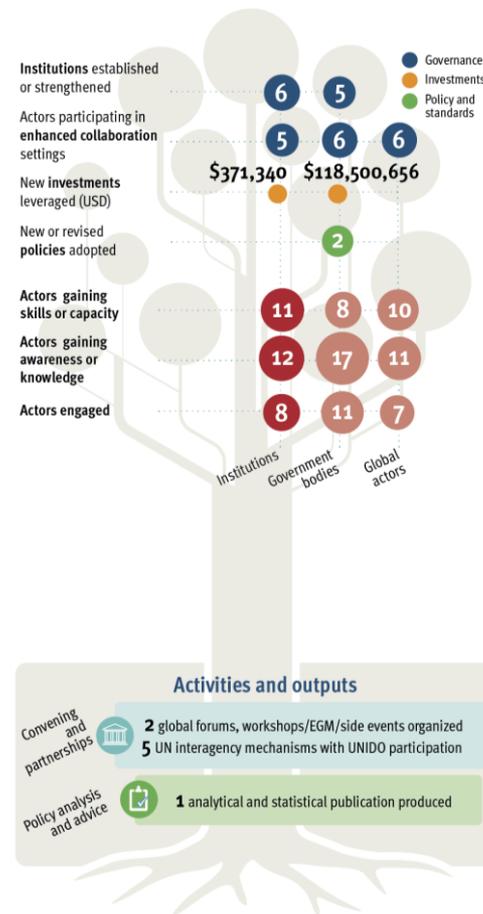

## The Programme for Country Partnership in Peru integrates upstream measures and multi-stakeholder partnerships.

In 2020, it resulted in the adoption of stronger industrial policies and reinforced institutional collaboration mechanisms.

It also contributed to leveraging over \$120 million in investments.

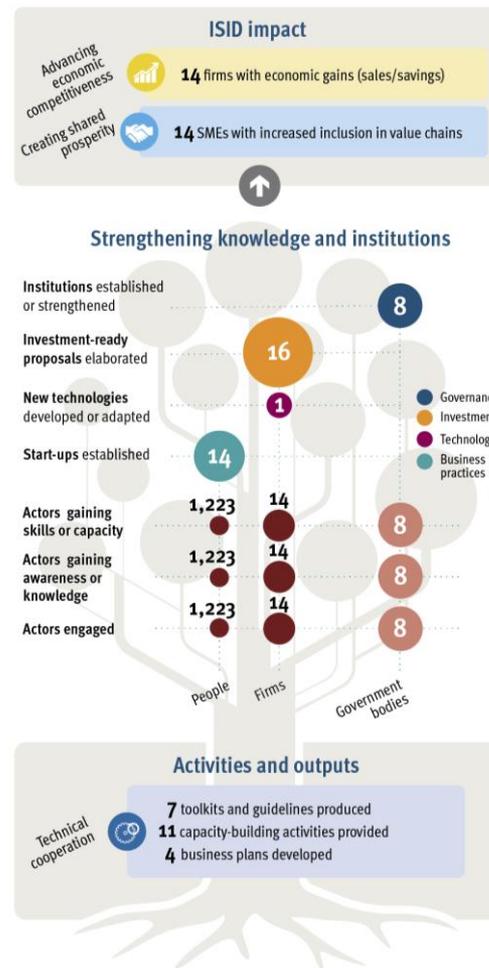

### Strengthening knowledge and institutions

## The UNIDO Cleantech Programme for SMEs in Thailand adopts a cross-sectoral approach to strengthen the innovation ecosystems for SMEs and start-ups.

It helps to create an enabling policy environment, to enhance institutional capacities and entrepreneurial skills.

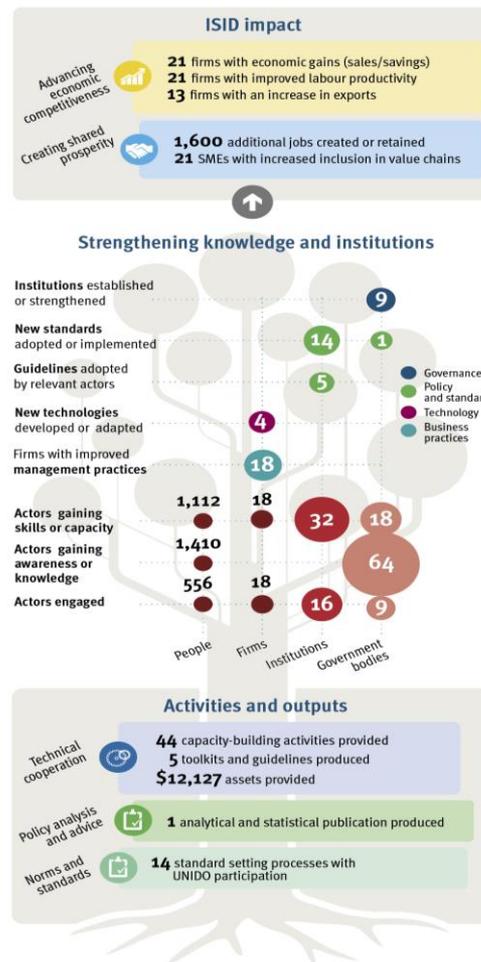

As a results, new technologies are developed and the innovative solutions are scaled up in the market.

# UNIDO's Support to Employment Creation in Mongolia, in partnership with FAO, strengthens value chains to facilitate productive employment and reduce social imbalances.

It does so through skills and capacity-building, including for women.

Working closely with the Government, firms and institutions, the project enhanced business practices, and fostered the adoption of standards and technologies.
